

LETTER TO DENTAL PROFESSIONALS

ABOUT LORAN HEALTH PLUS™ INSURANCE - DENTAL COVERAGE

Dear Dental Professional,

We represent the Loran Health Plus™ Insurance Plan underwritten by Beneplan Inc. and Green Shield Canada. The plan's allowable coverage for scaling / root planing is 2 units for adults, 1 unit for children age 10 – 17, and ½ unit for children under age 10, as part of a recall exam every 9 months.

The Plan recognizes that sometimes additional scaling / root planing is advisable. In these cases, reimbursement for additional treatment will be considered upon receipt of satisfactory clinical evidence that it is necessary. This portion of Health Plus™ dental coverage is underwritten by Beneplan Inc. The evidence submitted to Beneplan is assessed by the dentist who serves as the professional consultant to the Plan.

If you are recommending additional scaling, please provide:

1. Clinical diagnosis and proposed treatment: number of visits and frequency
2. Periodontal charting
3. Radiographs (Please send duplicate Xrays / digital prints. Materials will not be returned.)
4. Any indications of systemic conditions which should be considered e.g. diabetes.
5. Age of patient.

Please note: claims will not be considered if the evidence submitted is incomplete.

Please send this information by mail, email or fax to:

Beneplan Inc.
150 Ferrand Drive Suite 500
Toronto, Ontario M3C3E6
Attention: Vincenza Principato

Phone: 416 -863-6718 Ext.249
Fax: 416-863-5157
Email: Vincenza@Beneplan.ca

Other Health Plus™ features for you to be aware of are: Coverage for bite-wing X-rays is one every 2 years. For full mouth or panoramic X-rays, the Plan covers one every 5 years.

Thank you for your cooperation.
